

Scope of Work Document

Scope of Work (SOW) -

Build an application or add a unique twist on a common application. The application can be a game, a business support program, or robot to give a few examples. Projects should focus on creating C++ or Swift applications that utilize long-term data storage.

Please submit your Scope of Work Document detailing the application you plan to complete. Your last assignment will implement your plan

Student Project – Scope of Work (SOW)

Project Title: *Simple Journal App*

Student Name: *Maurice Abbott*

Date: 7/24/2025

1. Project Overview

(Write 2–3 sentences about what your project will do.)

I will be writing a simple journaling application. It will allow for users to create new notes and read/update/delete existing notes (ie CRUD). Saved notes will be persistent (saved in CSV format), and users will be able to output existing notes as text files.

**certain values may be reserved as journal commands (e.g. enter/exit)

2. Features

- Main menu
- Create new note
- Reference existing note for update/delete
- Special commands while in editor
- Output Journal as txt
- Save/load notes from csv
